# 2017 INFLUENCING THE FUTURE OF EU R&I POLICIES

[www.earto.eu](http://www.earto.eu)

European Association  
of Research and Technology Organisations

This year the Brexit has brought European leaders to think further on Europe's future. Few scenarios have been drawn. Discussions are now on what Europe's priorities should be and where its next investments should be made. In this context, EARTO has worked hard to promote the understanding that RD&I investments will be key to Europe's future industrial competitiveness & growth.

Thanks to its partnerships with 22 key industrial European associations in Europe, EARTO and European industry have voiced the need to be supported at EU level for their investments in RD&I, pointing RD&I as one key European asset in need of strengthening in the future European budget. We are now looking forward to 2018 where key decisions will be taken on Europe's future and budget. EARTO will continue to promote the need to have strong European ambitions with regards to RD&I.

**Frank Treppe**, EARTO President, Director International Affairs and Research Programs, Fraunhofer-Gesellschaft

---

With a pivotal year ahead of us, EARTO will continue to defend the interest of RTOs making sure their voice is heard at EU level. The uncertainties around the next EU budget brings concern for the future R&I Framework Programme FP9. Member States have now to decide collectively what type of investments they are ready to make at EU level on RD&I and how much they prioritise those over others such as immigration, defence, etc. EARTO has not shied away from the discussion on impact of RD&I investments. EARTO has supported the European Commission in its various thinking towards new RD&I policy instruments to bring further industrial competitiveness: the future of Key Enabling Technologies and the European Innovation Council. EARTO and its members are committed to showcase the importance of investing in applied research which brings real added-value to the EU economy.

**Antti Vasara**, EARTO Vice-President, Chief Executive Officer, VTT

---

As last years, EARTO has succeeded in fulfilling its priorities and our membership keeps growing which shows the attractiveness of our network. Thanks to the members involvement in our different Working Groups, common positions have been defined in the preparation of the post-2020 programming period and received general good feedback from EU Institutions and stakeholders. EARTO members sit in many EU advisory bodies shaping the future of R&I policies such as the Open Science Policy Platform, HLG of the KETs, etc. We are therefore confident in the future of our network and will keep working for its success.

**Ernst Kristiansen**, EARTO Treasurer, Vice-President Research, SINTEF

# MEMBERSHIP & SERVICES TO ITS MEMBERS

EARTO WELCOMED **6** NEW MEMBERS IN 2017

CERGOL (IT), CIDETEC (ES), IK4 Alliance (ES), IPC (FR), IRT M2P (FR) and TPF (Poland)

## Our Membership Categories are

- **Individual Members:** organisations established in EU or “Associated Country” in the meaning of the EU Framework Programme for Research and Technological Development and which as their predominant activity provide research and development, technology and innovation services and which are managerially independent. EARTO services accessible: all the services of the secretariat without restriction.
- **Association Members:** not-for-profit national/regional/sectoral RTOs associations established in the European Union or European Economic Area or in an “Associated Country” in the meaning of the EU Framework Programme for Research and Technological Development and whose members are predominantly organisations which meet the conditions for individual membership and whose membership is broadly representative of the industrial research and development, technology and innovation sector in the territory, sector or other sphere of activity of the said association. EARTO services accessible: Only the “secretariat” of the association *stricto sensu* shall enjoy the rights of EARTO membership (i.e. Association cannot send its members to participate to EARTO WGs).
- **Corresponding Members:** industrial research and technology organisations which are established in countries which have a co-operation agreement with the European Union concerning science and technology and which otherwise meet the conditions of individual membership. EARTO services accessible: Newsletter service, participate to EARTO general events, can join one Working Group, do not have voting rights.
- **Honorary Members:** individuals or organisations which do not qualify for membership of the Association and which by their activities, by financial contributions or by other means make a significant contribution to the fulfillment of the purpose of the Association. EARTO services accessible: Newsletter service, participate to EARTO general events, can join one Working Group, do not have voting rights.

## Our Yearly Events

To foster networking between members and exchanges with external partners, EARTO organises a number of internal meetings (Executive Board, Steering Committee, Working Groups) and public events. Yearly public events include:

- One **Annual Conference** with some 250 participants, co-hosted by one EARTO member in its own country, rotating every year. In 2017, German EARTO member Fraunhofer kindly hosted the event in Munich.
- One **Policy Event** in Brussels discussing EU R&I Policy with some 250 participants, followed by the **Innovation Awards Ceremony** in the evening, where EARTO members compete for the prize for best innovation of the year (two categories: Impact Delivered & Impact Expected).
- **Innovation Schools:** EARTO launched in 2015 a new set of events, the Innovation Schools, specially dedicated to EU policy-makers from EC, EP and Member States. Past sessions have been organised on Internationalisation of RTOs, RTOs’ Deep Tech Start-Up and EIB Report on the Access to Finance for RTOs.

## Our Daily EU Policy & Press Monitoring

- EARTO Newsletters, which includes outcome of Working Groups’ meetings, policy developments and reporting of events.
- EARTO website’s news section updated regularly with information from the monitoring of over 50 websites of EU Institutions and key press.
- Twitter (4,900 followers) & EARTO LinkedIn Group on Horizon 2020 (12,300 members).
- EARTO Members’ Area containing all EARTO newsletters, WGs documents and non-public policy documents gathered as a result of networking efforts.

## Our Meeting Room & Flexible Working Space

Our meeting room is available to members for meetings of up to 12 participants under a small compensation (€250/day, Lunch arrangements extra). Members needing a larger meeting room in Brussels are welcome to contact the EARTO Secretariat for assistance. In addition, EARTO has an extra one-person working space for its members to use whenever in Brussels.

## EARTO VISION

A European research and innovation system without borders in which RTOs occupy nodal positions and possess the necessary resources and independence to make a major contribution to a competitive European economy and high quality of life through beneficial cooperation with all stakeholders.

## EARTO MISSION

To promote and defend the interests of RTOs in Europe by reinforcing their profile and position as key players in the minds of EU decision-makers and by seeking to ensure that European RD&I programmes are best attuned to their interests; to provide added-value services to members to help them to improve their operational practices and business performance; to provide members with information and advice to help them make the best use of European RD&I programmes funding opportunities.
